

Use these cards to support child's interest in topic and expose them to new vocabulary. Print on card stock and laminate for longer use. After cutting cards out, draw with marker or stick dot sticks to the back of each set - one colour for each set.

Before introducing child to new vocabulary invite him or her to place cards face down, and sort them by colour of the dot. Take one pile and lay one set on the left side of the table or mat introducing new vocabulary. Then pick up top card from the second pile and find matching picture. Invite your child to match the rest of the cards.

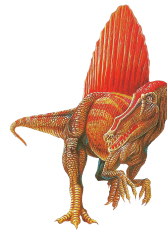

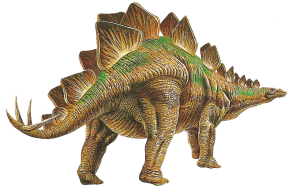

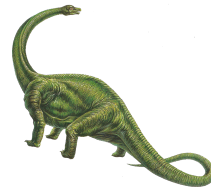

Euoplocephalus

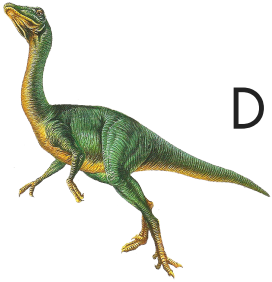

Spinosaurus

Stegosaurus

Brachiosaurus

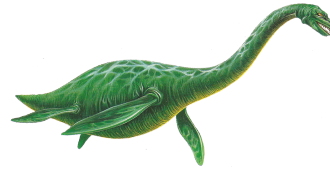

Dromaeosaurus

Pterodactyls

Stegoceras

Plesiosaur

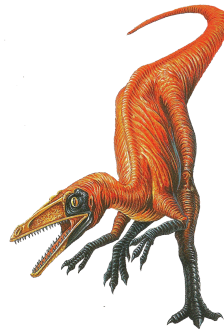

Triceratops

Parasaurolophus

Tyrannosaurus

Ornithomimus
